

MUKUL RAJ

Full Stack Developer | AI & Automation Specialist | Performance Marketing Enthusiast

Bangalore, India • +91 7654045391 • mukulraj123cs@gmail.com • GitHub • LeetCode

PROFESSIONAL SUMMARY

Full Stack Developer & Assistant Manager with 3+ years building high-scale Real Estate and E-commerce platforms using Angular, .NET/ASP.NET, and Python. Proficient in AI-assisted development (GitHub Copilot, OpenAI API), prompt engineering, workflow automation, and CRM integrations. Hands-on experience with performance marketing (Google Ads, Meta Ads), Google Tag Manager (GTM)-based tracking/SEO, and AI-powered graphic design tools. Managed 300+ SEO-optimized landing pages and actively expanding expertise in ML fundamentals and intelligent automation pipelines.

CORE SKILLS

- **Frontend:** Angular (v12+), ReactJS, RxJS, NgRx, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap
- **Backend:** .NET Core, ASP.NET MVC, Web API, Entity Framework, Java (JSP/Servlets), Python, PHP, C#
- **Databases:** SQL Server, PostgreSQL, MySQL
- **AI & Automation:** OpenAI API, GitHub Copilot, ChatGPT, LangChain (Basic), Hugging Face (Basic), Prompt Engineering, Python Scripting, Pandas, NumPy, ML Fundamentals, NLP Basics
- **Performance Marketing & SEO:** Google Ads, Meta Ads (Facebook & Instagram Ads), Google Tag Manager (GTM), Google Analytics, Conversion Tracking, Technical SEO, Core Web Vitals, A/B Testing
- **AI Graphic Design:** Canva AI, Adobe Firefly, Midjourney, DALL·E, AI-assisted creative & ad-banner generation

PROFESSIONAL EXPERIENCE

Assistant Manager – Software Developer | *Maxim Realty Advisors, Bangalore* Jan 2025 – Present

- Led end-to-end development of maximrealty.in using Angular with E-commerce modules; accelerated delivery using GitHub Copilot for AI-assisted component scaffolding.
- Integrated OpenAI API for AI-generated, SEO-optimized property descriptions, reducing content creation effort by ~70%; automated data-update workflows with Python scripts.
- Engineered real-time CRM-synced lead capture workflows across 100+ property projects, improving lead-to-deal conversion through intelligent UI automation.
- Set up and managed Google Tag Manager (GTM) containers for site-wide event and conversion tracking, feeding Google Ads and Meta Ads campaigns with accurate lead-quality data.
- Planned and optimized Google Ads and Meta Ads campaigns for property listings, using performance data to refine targeting and improve cost-per-lead.

Executive Software Developer | *Propmart Technologies Limited, Bangalore* Feb 2024 – Jan 2025

- Built and managed 300+ dynamic SEO-optimized Angular SPAs focused on Core Web Vitals; used prompt engineering with AI tools to generate and A/B test property marketing copy.
- Developed REST API integrations and Python automation scripts to batch-process property data, reducing manual effort and boosting organic search visibility.
- Implemented GTM-based tagging and on-page technical SEO improvements, and used AI graphic design tools to rapidly produce ad creatives for marketing campaigns.

Software Developer | *Droisys India Pvt Ltd, Noida* Feb 2023 – Jul 2023

- Developed the Service Module of the a360 enterprise application using C#, ASP.NET MVC & Web API; optimized PostgreSQL queries and adopted GitHub Copilot for code-review efficiency.

AI PROJECTS & AUTOMATION

AI Property Description Generator — Personal Project

- Python + Flask tool using OpenAI GPT-4 API with reusable prompt templates to auto-generate SEO-optimized listings from structured data; output pushed to MySQL via REST API.

Stack: Python, Flask, OpenAI API, Prompt Engineering, MySQL

Automated Lead Data Pipeline — Personal Project

- Python script ingesting multi-portal lead submissions, deduplicating with Pandas, and syncing structured records to CRM via REST API — eliminating manual data entry.

Stack: *Python, Pandas, NumPy, REST APIs, CSV Automation*

AI-Powered Performance Marketing Tool — Personal Project

- Built an AI tool that generates and scores ad copy and creatives for Google Ads and Meta Ads campaigns, using GPT-4 prompt templates to produce multiple headline/description variants per property listing.
- Integrated Google Tag Manager and Google Analytics event data to feed campaign performance (CTR, CPL) back into the tool, auto-flagging low-performing ad sets for refresh.
- Used AI graphic design tools (Canva AI / Adobe Firefly) within the pipeline to auto-generate on-brand ad banners alongside the AI-written copy, cutting creative turnaround time significantly.

Stack: *Python, OpenAI API, Google Ads API, Meta Marketing API, Google Tag Manager, Canva AI*

KEY PROJECTS

Electronic Gadgets Repairing Hub — Lead Developer

- Full-stack repair management platform with multi-role access (Admin, Employee, Customer), normalized MySQL schema, Employee Dashboard, Registration System & Admin interfaces.

Stack: *Java, JSP, Servlets, MySQL, JavaScript, HTML5, CSS3*

EDUCATION & ACHIEVEMENTS

B.Tech Computer Science | Hi-Tech Institute of Engineering & Technology, Ghaziabad | 86% | 2019–2023

Intermediate (Science) | MBBL College, Muzaffarpur | 80.2% | 2018–19 **Matriculation (10th)** | Dr. M.L Das's Academy | 9.0 CGPA | 2016–17

- 2nd Prize – Inter-College Coding Competition; 2nd Academic Rank in Engineering department; active LeetCode practitioner.
- AI Upskilling: Self-directed study in OpenAI API integration, Python automation, performance marketing (Google Ads, Meta Ads, GTM) & ML fundamentals — applied in live personal projects.
- Languages: Hindi and English (Professional Proficiency)
